

Areas of Expertise:

Harry is a Chartered Environmentalist with 10 years' experience of managing environmental assessments for high profile transport, residential, waste and flood management developments. He has strong project management and leadership experience, working with and directing specialist teams and particularly enjoys working directly with clients during all development stages, from feasibility and concept masterplan designs through to construction, to manage the environmental risks, constraints and opportunities. Over his career to date, Harry has built a good working experience of managing EIAs under a range of consenting regimes within the UK.

Prior to joining Quod, Harry worked on the UK's High Speed 2 Rail Project as part of the environment team supporting the Hybrid Bill through the parliamentary process. He has also worked on a varied range of other infrastructure developments including oil and gas and flood alleviation schemes as well as mixed-use residential developments and municipal waste management facilities.

Key Experience:

- **Berinsfield Masterplan (South Oxfordshire)** – EIA project manager for 1,700 homes residential-led masterplan in South Oxfordshire, leading on the environmental inputs into the masterplan early concept and design to ensure the environmental constraints and risks are managed and the environmental opportunities are identified and are incorporated into the masterplan.
- **Residential masterplan, South East England (confidential)** – EIA project manager for a large residential-led masterplan, coordinating the environmental specialist studies and environmental input into the developing masterplan concept design and planning application.

Key Projects:

Berinsfield masterplan
The Leisure Hall
Extension, Meadowhall
Dolffin Quay
High Speed 2
South Stream
Offshore Pipeline
Cockermouth Flood
Alleviation Scheme
Todmorden Flood
Alleviation Scheme
Wylfa Power Station

Profile: Harry Parker

- **The Leisure Hall extension, Meadowhall (British Land)** – EIA project manager for the new Leisure Hall extension at the Meadowhall Centre in Sheffield in support of major planning application.
- **Dolffin Quay, Cardiff (Associated British Ports)** – EIA Lead coordinator for residential-led mixed use development, directing multiple technical consultants for an EIA to support planning application.
- **Wylfa Power Station (Horizon Nuclear Power)** – Lead for all of the in-combination and cumulative effect assessment chapters in the DCO Environmental Statement for this large scale infrastructure project. This role was as a secondment to the Jacobs team who led the EIA process.

Previous Key Experience

- **High Speed 2, Phase One (HS2 Ltd)** – A succession of roles including the EIA coordinator for one of the West Midlands sections of the Phase One route (London to Birmingham) and a member of the Environmental Overview Consultant team overseeing the EIAs required for the additional provisions submitted to the Hybrid Bill. The role also included environmental input into design development phase of the West Midlands stations, interacting with the project team to ensure environmental objectives were met.
- **South Stream Offshore Pipeline (South Stream Transport)** – EIA coordinator for the Russian section of the offshore gas transport scheme, a gas pipeline transporting gas to Europe via the Black Sea.
- **Sovereign Court (St George West)** – EIA project manager for the EIA to support the planning application for a large, mixed use residential development in the London Borough of Hammersmith and Fulham.
- **Cockermouth Flood Alleviation Scheme (Environment Agency)** – Project managed the EIA, Habitat Regulations Assessments, Conservation Area and Listed Buildings Consents for a complex flood alleviation scheme along the rivers Cocker and Derwent.
- **Todmorden Flood Alleviation Scheme (Environment Agency)** – Environmental Clerk of Works during construction of the flood alleviation scheme, ensuring construction activities were carried out in compliance with legislative and Environment Agency policy and guidance.
