

A Quod profile

# Jessica Hawley

## Research Assistant

A-Levels - Economics, Physics, Mathematics and Art (AAAA\*)

First Year BSc Economics Student

[jessica.hawley@quod.com](mailto:jessica.hawley@quod.com)

### Areas of expertise

Jessica has experience of working on a range of projects of both national and regional significance. She is confident to work with economic, demographic and health data to inform socio-economic baselines and strategies. She is familiar with GIS mapping software, used to provide visuals that accompany data analysis.

Jessica is an apt researcher with an eye for detail. These skills enable her to compress information to help her colleagues familiarise themselves with the potential limitations and opportunities of a development.

### Key experience

For the Heathrow Airport Expansion, Jessica provided research support in connection with the delivery of a third runway through a Development Consent Order (DCO). This included assessing the sustainability of surrounding villages that would be effected by the expansion and finding ways to address any arising issues.

Jessica has further experience working of national energy infrastructure. For Bradwell B, she carried out extensive data collection work relating to tourist accommodation.

### Key clients

Heathrow  
EDF Energy  
EcoWorld

### Key Projects

Heathrow Airport Expansion  
Bradwell B  
Sizewell C  
Hinkley Point C  
Aberfeldy Village

She has done various mapping tasks for both Hinkley Point C and Sizewell C, using these visuals to influence strategies for housing construction workers.

Jessica is familiar with school capacity analysis and has written reports on the current and forecasted demand for primary and secondary school places, especially in developments across London (including Aberfeldy Village).
