

A Quod profile

Alex Stoyle

Environmental Consultant

MSc Sustainability and Consultancy

alex.stoyle@quod.com

Areas of expertise

Alex first joined Quod's Environmental Planning Team in May 2023 during a 10-week internship, and was soon offered a full time role within the team. Alex is a key part of the EP team, being involved in all aspects of the Environmental Impact Assessment process, including EIA coordination, screening, scoping and drafting of reports, alongside project management and coordination. Alex's experience spans a variety of projects including residential, logistics and mixed-use developments.

Key experience

Atlip Gardens, Brent – Assistant Project Management role for a detailed application within the London Borough of Brent, delivering 885 homes together with commercial and community uses. Required precise coordination amongst EIA stakeholders to align design development with wind microclimate mitigation.

New Barclay House, Oxford – Drafted and coordinated an EIA screening for a new life sciences laboratory providing a sustainable, car-lite, R&D space. Required attention to detail and an analytical mind to detect and screen out potential environmental impact pathways.

Key projects

Atlip Gardens
Millennium Retail Park
Guildford Riverside
The Lansdowne Building
